# **Getting ready to drive to the Test Centre**

**There is a new type of flu called the coronavirus. It's like a cold.**

**If I'm feeling sick the Doctor might ask my Mam or Dad or my carer to bring me to the Test Centre.**

**The Test Centre is where people are being tested for Coronavirus.**

**My Mam or Dad or my carer will drive me there.  
We will stay in the car the whole time.**

**I can bring my favourite book, teddy or toy with me.**

**The people we see at the Test Centre will be wearing eye glasses or goggles and masks over their mouths.**

**We will have masks to wear too.  
We look very funny.**

**We will wait in a line with other cars until the security guard tells us to go.**

**We will then drive until a person waves hello.**

**They tell us where to stop our car.  
They look funny too.**

**They are wearing a big white sheet. We are all wearing these funny things to keep us safe.**

**My mam or dad or my carer will roll down the window a little bit to talk to them.**

**Then they will ask me to blow my nose into a tissue.**

**Last they will wipe the inside of my mouth and nose with a soft stick called a swab.**

**This might feel a bit weird, but it doesn't hurt.**

**I will open my mouth wide and put my head back to make this easier.**

**Then it's time to leave and we will all go home together.**
