PREFACE

The two-winged flies (Diptera) constitute one of the larger orders of insects and are very abundant both as individuals and species. They occur in many different habitats almost everywhere. Many species are parasitic or prey on other insects and invertebrates. Constituting an importance source of food to many fish, mammals and birds, they are also important as scavengers or in controlling noxious species. However, some are vectors of disease while others damage cultivated plants. The larvae are usually legless and wormlike. Often lacking a well developed head, they are often called maggots. The adults range from minute to large insects in which the hind wings are reduced to club-shaped halteres, leaving only one pair of membranous wings. A few species are wingless. The group includes such familiar insects as bluebottles, crane-flies, house-flies, midges and mosquitoes. The present checklist records 3313 valid species. It is expected that many more species await discovery in Ireland.

An annotated checklist of the Irish two-winged flies (Diptera) is the third volume in a series checklisting the Irish insect fauna. The first was published in 1997 and dealt with the beetles (Coleoptera) (R. Anderson, R. Nash and J. P. O'Connor. *Special Entomological Supplement to The Irish Naturalists' Journal*). The second appeared in 2006 and covered the butterflies and moths (Lepidoptera) (K. G. M. Bond, R. Nash and J. P. O'Connor. The Irish Biogeographical Society in association with The National Museum of Ireland).

This volume is also published in association with The National Museum of Ireland. On behalf of The Irish Biogeographical Society, I wish to thank Dr Pat Wallace (Director), Mr Ragnall Ó Floinn (Head of Collections) and Mr Nigel Monaghan (Keeper of Natural History) for their interest in and encouragement of this work.

INTRODUCTION

A checklist of Irish Diptera was incorporated within the latest checklist of Diptera of the British Isles (Chandler 1998b) by the addition of the + symbol after the name for all species known to have Irish records that had already been published. An update of the Irish list was provided by Chandler (2004a) and this has since been kept up to date in subsequent issues of *Dipterists Digest* (Chandler 2004b, 2005, 2006a, 2006b, 2007a, 2007b, 2008a and 2008b).

The present list brings together all species for which to date there have been published records from Ireland, including a few that were overlooked in the above works and here the + symbol preceding a name indicates that it has been first recorded from Ireland since the checklist (Chandler 1998b).

Under each family, reference is made to any comprehensive reviews of the Irish fauna of that family that have been published. These reviews generally cite references to previous works on the family and evaluate the authenticity of previous records. For this reason they are treated here as the basis for the Irish list of the family concerned and earlier references are usually only cited where they are of particular significance or relate to exotic species that have been introduced to Ireland.

For species first recorded from Ireland subsequent to the cited review of a family, references to their addition to the Irish list are provided in footnotes. The footnotes also include references to all species added since the latest checklist (Chandler 1998b), including those added in more recent reviews of the Irish fauna.

The nomenclature follows Chandler (1998b), except where there have been more recently accepted changes reported in the supplements published in *Dipterists Digest*. In all such cases, where there is a difference in nomenclature or status of a taxon from Chandler (1998b), the reference to this change is cited.

Species requiring confirmation are given in square brackets. These species were indicated by ?+ by Chandler (1998b). In some cases there has been later confirmation that the species occurs in Ireland and this is indicated in footnotes. Chandler (1998b) included 47 species in this category and here 36 species are so listed, twelve species having been confirmed, but one other species (*Minettia tabidiventris* = *fasciata* of Chandler 1998b) is now queried.

The following table indicates what changes there have been in each family since 1998, arriving at a new total of species confirmed as occurring in Ireland of 3313. This excludes four species that have been imported into Ireland but are not considered to be established members of the fauna. These four species are listed at the end of the family concerned (Tephritidae, Hippoboscidae, Muscidae and Oestridae) and the records of their occurrence in Ireland are cited.

SPECIES LIST

1. TIPULIDAE

The Irish fauna was reviewed by Ashe *et al.* (2007a). This name is restricted to the subfamily Tipulinae of Kloet and Hincks (1976), following the Palaearctic Catalogue (Oosterbroek and Theowald 1992). The remaining Tipulidae *sensu lato* are assigned to three other families.

CTENOPHORINAE

CTENOPHORINI

CTENOPHORA MEIGEN, 1803

SUBGENUS *CNEMONCOSIS*

4. LIMONIIDAE

The Irish fauna was reviewed by Ashe *et al.* (1998, 2005a, 2007b). The recognition of family rank for this group and consequently subfamily rank for the tribes follows the Palaearctic Catalogue (Savchenko *et al.*, 1992). The concept here differs only in respect of according family rank to the Pediciidae.

10. MYCETOPHILIDAE

Synonymy: Fungivoridae.

The restricted concept of the Mycetophilidae accepted by Chandler (1998b) corresponds to the subfamilies Sciophilinae, Manotinae and Mycetophilinae of earlier British lists. The Irish fauna was reviewed by Chandler (1976a), updated by Chandler (1977a, 1978a, 1987b). References to first Irish record are given only for species not included in those works.

12. CECIDOMYIIDAE

The Irish fauna was reviewed by O'Connor, Wistow, Ashe and O'Connor (1998). Knowledge of the Irish fauna of this large family is evidently still at an early stage and many more additions, even among gall causers, must be expected. Changes to the tribal classification follow Gagné (2004).

39. EMPIDIDAE

The Irish fauna was reviewed by Chandler (1978d) and checklisted by Lavery *et al.* (1993). In the composition of this family, the work of Chvála (1983) is again followed and it is restricted to the subfamilies Empidinae, Hemerodromiinae and Clinocerinae of Kloet and Hincks (1976), with the exclusion of *Microphor* (referred initially to Microphoridae and now to Dolichopodidae). The composition of the Hemerodromiinae and Clinocerinae follows Sinclair (1995); he also proposed a subfamily Trichopezinae for *Trichopeza* but the subfamily and tribal arrangement here follows Sinclair and Cumming (2006), who transferred Trichopezinae to the family Brachystomatidae.

41. DOLICHOPODIDAE

The Irish Dolichopodidae were reviewed by Dyte (1969), while the Irish Microphorinae were reviewed under Empididae by Chandler (1978d) and checklisted by Lavery *et al.* (1993). The family Microphoridae was separated from the Empididae by Chvála (1983) and recognised in the Palaeartic Catalogue (Chvála 1989) and by Chandler (1998b), with the indication that it was closer to the Dolichopodidae. More recently, its inclusion within the Dolichopodidae has been proposed by Sinclair and Cumming (2006), who are followed here. Relationships within the Dolichopodidae are otherwise far from clear; all workers have recognised a moderately large number of subfamilies and the composition of some of them is still controversial and the other nine subfamilies recognised here are constituted as in Chandler (1998b), who discussed the various difficulties involved.

modesta (Zetterstedt, 1844)

rufa (Meigen, 1830)

44. PHORIDAE

Schmitz (1938) reviewed the Irish species and provided a basis for knowledge of the fauna. More recently the British species have been revised by Disney (1983, 1989), who referred to occurrence in Ireland, often citing county records but omitted reference to Ireland in the case of species stated to be “widespread in the British Isles”. Disney (1991) indicated occurrence in Ireland in those cases.

ANEVRINA LIOY, 1864

thoracica (Meigen, 1804)

Synonymy: *dimidiata* (Meigen, 1830).

53. PIOPHILIDAE

Synonymy: Thyreophoridae.

In the British checklist McAlpine (1977) was followed in uniting Neottiophilidae and Thyreophoridae with the Piophilidae. Ozerov (2004) has proposed that Neottiophilidae, with one British species not known from Ireland, should be restored to family rank. The recognition of genera separated from *Piophila* Fallén follows McAlpine (1977) and Zuska (1984), except in respect of generic changes proposed by Ozerov (2004). The Irish species have not been reviewed and some earlier records require re-evaluation.

PIOPHILINAE

1854).

**MALACOMYIA HALIDAY IN
WESTWOOD, 1840**

sciomyzina (Haliday, 1833)

60. DRYOMYZIDAE

The British checklist followed Steyskal (1987) in including Helcomyzidae as a subfamily of Dryomyzidae, but recent usage has followed the Palaearctic Catalogue in treating it as a family (Gorodkov 1984; Soós 1984b), placing *Malacomyia* in Coelopidae and following McAlpine (1991) in recognising a family Heterocheilidae for *Heterocheila*, thus restricting the Irish fauna of this family to the Dryomyzinae of the British checklist.

79. HELEOMYZIDAE

Synonymy: Heteromyzidae; Helomyzidae.

The Irish county distribution was included in a review of the genus *Suillia* by Withers (1987); there has been no review of the Irish species of other genera but many scattered records in the earlier literature. Chandler *et al.* (2002) updated the Irish list, adding 10 species to bring it to 33. The subfamily Trixoscelidinae of the British list is here accorded family rank to reflect recent usage. Two other groups included in this family by Chandler (1998b) and now raised to family rank (Chiropteromyzidae and Cnemospathidae) are not yet recorded from Ireland.

CORDILURA FALLÉN, 1810

**SUBGENUS CORDILURA SENSU
STRICTO**

Synonymy: *Cordylura*, error.

aemula Collin, 1958

Footnote: added by Speight (1983b).

impudica Rondani, 1866

pubera (Linnaeus, 1758)

pudica Meigen, 1826

rufimana Meigen, 1826

**SUBGENUS CORDILURINA
JAMES, 1955**

Synonymy: *Parallelomma* Becker,
1894, preoccupied.

albipes Fallén, 1819

GIMNOMERA RONDANI, 1866

Synonymy: *Gymnomera* error.

tarsea (Fallén, 1819)

HYDROMYZA FALLÉN, 1823

+*livens* (Fabricius, 1794)

Footnote: added by Chandler *et al.*
(2002).

MICROPROSOPA BECKER, 1894

pallidicauda (Zetterstedt, 1838)

Footnote: added by Speight (1983b).

NANNA STROBL, 1894

Footnote: authorship revised by
Michelsen (2001).

Synonymy: *Amaurosoma* Becker,
1894.

fasciata (Meigen, 1826)

inermis (Becker, 1894)

multisetosa (Hackman, 1956)

Footnote: added by Speight (1995).

**NORELLISOMA WAHLGREN,
1917**

+*opacum* (Loew 1864)

Footnote: added by Chandler (1974) as
lituratum: misidentification corrected
by Chandler *et al.* (2002).

spinimanum (Fallén, 1819)

POGONOTA ZETTERSTEDT, 1860

barbata (Zetterstedt, 1838)

SCATHOPHAGA MEIGEN, 1803

Synonymy: *Scatophaga*, error;
Scopeuma Meigen, 1800, suppressed.

calida Haliday *in* Curtis, 1832

Synonymy: *rudis* Haliday *in* Curtis,
1832.

furcata (Say, 1823)

Synonymy: *squalida* Meigen, 1826.

inquinata Meigen, 1826

Synonymy: ?*analis* Meigen, 1826.

litorea (Fallén, 1819)

Synonymy: *arrogans* Haliday *in* Curtis,
1832.

lutaria (Fabricius, 1794)

scybalaria (Linnaeus, 1758)

Synonymy: *eximia* Haliday *in* Curtis,
1832, preoccupied.

stercoraria (Linnaeus, 1758)

Synonymy: *merdaria* (Fabricius,
1794).

suilla (Fabricius, 1794)

Synonymy: *taeniopa* Rondani, 1866.

SPAZIPHORA RONDANI, 1856

Synonymy: *Spathiphora*,
Spathiophora, errors.

hydromyzina (Fallén, 1819)

TRICHOPALPUS RONDANI, 1856

fraternus (Meigen, 1826)

Footnote: confirmed by Speight
(1983b).

91. ANTHOMYIIDAE

The Irish fauna was reviewed by Chandler *et al.* (2006).

ANTHOMYIINAE

ANTHOMYINI

***ANTHOMYIA* MEIGEN, 1803**

Synonymy: *Craspedochoeta* Macquart, 1851; *Craspedochaeta*, error; *Chelisia* Rondani, 1856.

+*confusanea* Michelsen, 1985

Footnote: added by Chandler *et al.* (2006).

liturata (Robineau-Desvoidy, 1830)

pluvialis (Linnaeus, 1758)

+*procellaris* Rondani, 1866

Footnote: added by Chandler *et al.* (2006).

***BOTANOPHILA* LIOY, 1864**

Synonymy: *Pegohylemyia* Schnabl and Dzierdzicki, 1911.

brunneilinea (Zetterstedt, 1845)

Synonymy: *seticrura* (Rondani, 1866).

fugax (Meigen, 1826)

+*gnava* (Meigen, 1826)

Footnote: added by Chandler *et al.* (2006).

+*jacobaeae* (Hardy, 1872)

Footnote: added by Chandler *et al.* (2006).

+*latifrons* (Zetterstedt, 1845)

Footnote: added by Chandler *et al.* (2006).

+*lobata* (Collin, 1967)

Footnote: added by Chandler *et al.* (2006).

phrenione (Séguy, 1937)

+*sanctimarci* (Czerny, 1906)

Footnote: added by Chandler *et al.* (2006).

+*seneciella* (Meade, 1892)

Footnote: added by Chandler *et al.* (2006).

+*striolata* (Fallén, 1824)

Synonymy: *discreta* (Meigen, 1826).

Footnote: added by Chandler *et al.* (2006).

***FUCELLIA* ROBINEAU-DESVOIDY, 1842**

Synonymy: *Halithea* Haliday, 1836, preoccupied.

fucorum (Fallén, 1819)

maritima (Haliday, 1838)

+*tergina* (Zetterstedt, 1845)

Footnote: added by Chandler *et al.* (2006).

***HYLEMYA* ROBINEAU-DESVOIDY, 1830**

Synonymy: *Hylemyia* Macquart, 1835,

emendation.

nigrimana (Meigen, 1826)

vagans (Panzer, 1798)

Synonymy: *strigosa* (Fabricius, 1794),
preoccupied; *strenua* Robineau-
Desvoidy, 1830.

variata (Fallén, 1823)

**HYLEMYZA SCHNABL AND
DZIEDZICKI, 1911**

partita (Meigen, 1826)

Synonymy: *lasciva* (Zetterstedt, 1838).

CHIROSIINI

CHIROSLA RONDANI, 1856

betuleti (Ringdahl, 1935)

+*cinerosa* (Zetterstedt, 1845)

Footnote: added by Chandler *et al.*
(2006).

flavipennis (Fallén, 1823)

+*griseifrons* (Séguy, 1923)

Footnote: added by Chandler *et al.*
(2006).

grossicauda Strobl, 1899

Synonymy: *parvicornis*: auctt.,
misidentification.

+*histicina* (Rondani, 1866)

Footnote: added by Chandler *et al.*
(2006).

**EGLE ROBINEAU-DESVOIDY,
1830**

+*ciliata* (Walker, 1849)

Footnote: added by Chandler *et al.*

(2006).

+*parva* Robineau-Desvoidy,
1830

Footnote: added by Chandler *et al.*
(2006).

+*rhinotmeta* (Pandellé, 1900)

Footnote: added by Chandler *et al.*
(2006).

LASIOMMA STEIN, 1916

anthomyinum (Rondani, 1866)

Synonymy: *ctenocnema*: auctt.,
misidentification.

+*latipenne* (Zetterstedt, 1838)

Footnote: added by Chandler *et al.*
(2006); transferred from *Chirosia* by
Griffiths (2003).

seminitidum (Zetterstedt, 1845)

Synonymy: *meadei* (Kowarz, 1880).

+*strigilatum* (Zetterstedt, 1838)

Footnote: added by Chandler *et al.*
(2006).

HYDROPHORIINI

**ADIA ROBINEAU-DESVOIDY,
1830**

+*cinerella* (Fallén, 1825)

Footnote: added by Chandler *et al.*
(2006).

**DELIA ROBINEAU-DESVOIDY,
1830**

Synonymy: *Eroischia* Lioy, 1864;
Leptohylemyia Schnabl and Dzedzicki,

1911.

***albula* (Fallén, 1825)**

***antiqua* (Meigen, 1826)**

***coarctata* (Fallén, 1825)**

+*criniventris* (Zetterstedt, 1860)

Footnote: added by Chandler *et al.*

(2006).

+*echinata* (Séguy, 1923)

Footnote: added by Chandler *et al.*

(2006).

***florilega* (Zetterstedt, 1845)**

+*frontella* (Zetterstedt, 1838)

Footnote: added by Chandler *et al.*

(2006).

+*lamelliseta* (Stein, 1900)

Footnote: added by Chandler *et al.*

(2006).

+*nigrescens* (Rondani, 1877)

Footnote: added by Chandler *et al.*

(2006).

+*nuda* (Strobl, 1901)

Footnote: added by Chandler *et al.*

(2006).

+*penicillosa* Hennig, 1974

Footnote: added by Chandler *et al.*

(2006).

***planipalpis* (Stein, 1898)**

***platura* (Meigen, 1826)**

Synonymy: *cilicrura* (Rondani, 1866).

***radicum* (Linnaeus, 1758)**

Synonymy: *brassicae* (Wiedemann,

1817); *floccosa* (Macquart, 1835);

brassicae (Bouché, 1833),

preoccupied.

+*setigera* (Stein, 1920)

Footnote: added by Chandler *et al.*

(2006).

***EUSTALOMYIA* KOWARZ, 1873**

***festiva* (Zetterstedt, 1845)**

***HETEROSTYLODES* HENNIG,**

1967

+*nominabilis* (Collin, 1947)

Footnote: added by Chandler *et al.*

(2006).

***HYDROPHORIA* ROBINEAU-**

DESVOIDY, 1830

***lancifer* (Harris, 1780)**

Synonymy: *conica* (Wiedemann,

1817).

+*linogrisea* (Meigen, 1826)

Footnote: added by Chandler *et al.*

(2006).

***ruralis* (Meigen, 1826)**

***LEUCOPHORA* ROBINEAU-**

DESVOIDY, 1830

+*grisella* Hennig, 1967

Footnote: added by Chandler *et al.*

(2006).

***PAREGLE* SCHNABL, 1911**

***audacula* (Harris, 1780)**

Synonymy: *radicum*: auctt.,

misidentification.

**PHORBIA ROBINEAU-
DESVOIDY, 1830**

Synonymy: *Chortophila* Macquart,
1835.

+*bartaki* Ackland and
Michelsen, 1987

Footnote: added by Chandler *et al.*
(2006).

fumigata (Meigen, 1826)

**ZAPHNE ROBINEAU-DESVOIDY,
1830**

Synonymy: *Acroptena* Pokorny, 1893.

ambigua (Fallén, 1823)
caudata (Zetterstedt, 1855)
+*divisa* (Meigen, 1826)

Footnote: added by Chandler *et al.*
(2006).

+*inuncta* (Zetterstedt, 1838)

Footnote: added by Chandler *et al.*
(2006).

+*wierzejskii* (Mik, 1867)

Footnote: added by Chandler *et al.*
(2006).

PEGOMYINAE

MYOPININI

**MYOPINA ROBINEAU-
DESVOIDY, 1830**

myopina (Fallén, 1824)

Synonymy: *reflexa* Robineau-
Desvoidy, 1830.

**PEGOPLATA SCHNABL AND
DZIEDZICKI, 1911**

Synonymy: *Nupedia* Karl, 1930.

aestiva (Meigen, 1826)

infirma (Meigen, 1826)

Synonymy: *dissecta*: auctt.,
misidentification.

+*nigroscutellata* (Stein, 1920)

Footnote: added by Chandler *et al.*
(2006).

PEGOMYINI

EMMESOMYIA MALLOCH, 1917

+*grisea* (Robineau-Desvoidy,
1830)

Footnote: omitted in error from
Chandler 1998b (Chandler *et al.* 2006).

+*socia* (Fallén, 1823)

Footnote: added by Chandler *et al.*
(2006).

EUTRICHOTA KOWARZ, 1893

+*praepotens* (Wiedemann, 1817)

Footnote: added by Chandler *et al.*
(2006).

MYCOPHAGA RONDANI, 1856

testacea (Gimmerthal, 1834)

Synonymy: *fungorum*: auctt.,
misidentification.

PARADELIA RINGDAHL, 1933

intersecta (Meigen, 1826)

**PEGOMYA ROBINEAU-
DESVOIDY, 1830**

Synonymy: *Pegomyia* Macquart, 1835, emendation.

SUBGENUS PEGOMYA SENSU

STRICTO

***betae* (Curtis, 1847)**

Synonymy: *hyoscyami*: auctt., misidentification.

Footnote: added by Chandler *et al.*

92. FANNIIDAE

The Irish fauna of this family was reviewed together with that of Muscidae by Nash and Chandler (1978).

FANNIA ROBINEAU-DESVOIDY, 1830

Synonymy: *Homalomyia* Bouché, 1834;
Coelomyia Haliday in Westwood, 1840.

aequilineata Ringdahl, 1945

armata (Meigen, 1826)

canicularis (Linnaeus, 1761)

coracina (Loew, 1873)

corvina (Verrall, 1892)

fuscula (Fallén, 1825)

genualis (Stein, 1825)

incisurata (Zetterstedt, 1838)

lepida (Wiedemann, 1817)

lustrator (Harris, 1780)

Synonymy: *aprica* (Haliday, 1836).

manicata (Meigen, 1826)

melania (Dufour, 1839)

Footnote: added by Blackith and
Blackith (1991b).

mollissima (Haliday in
Westwood, 1840)

monilis (Haliday, 1838)

norvegica Ringdahl, 1934

Footnote: added by Blackith and
Blackith (1991b).

parva (Stein, 1895)

polychaeta (Stein, 1895)

postica (Stein, 1895)

posticata (Meigen, 1826)

Synonymy: *pretiosa* (Schiner, 1862).

rondanii (Strobl, 1893)

scalaris (Fabricius, 1794)

serena (Fallén, 1825)

similis (Stein, 1895)

sociella (Zetterstedt, 1845)

subsimilis Ringdahl, 1934

umbrosa (Stein, 1895)

Footnote: added by Blackith *et al.*
(1990).

PIEZURA RONDANI, 1866

pardalina Rondani, 1866

Synonymy: *graminicola* (Zetterstedt,
1846).

Footnote: revised by Pont (2002).

93. MUSCIDAE

The Irish fauna of this family was reviewed together with that of Fanniidae by Nash and Chandler (1978) and there have been relatively few more recent additions. Subsequent nomenclatural changes and the arrangement adopted here mainly follow Pont (1986).

ACHANTHIPTERINAE

ACHANTHIPTERA RONDANI, 1856

Synonymy: *Acanthiptera*: auctt., error.

***rohrelliformis* (Robineau-Desvoidy, 1830)**

Synonymy: *inanis* (Fallén, 1825), preoccupied.

COENOSIINAE

COENOSIINI

COENOSIA MEIGEN, 1826

Synonymy: *Caricea* Robineau-Desvoidy, 1830; *Allognota* Pokorny, 1893; *Dexiopsis* Pokorny, 1893 (Couri and Pont 2000).

***agromyzina* (Fallén, 1825)**

***albicornis* Meigen, 1826**

Synonymy: *lineatipes* (Zetterstedt, 1845).

***antennata* (Zetterstedt, 1849)**

***campestris* (Robineau-Desvoidy, 1830)**

Synonymy: *sexnotata*: auctt., misidentification.

***femorialis* (Robineau-Desvoidy, 1830)**

Synonymy: *geniculata* (Fallén, 1825), preoccupied.

***flavimana* (Zetterstedt, 1845)**

Synonymy: *albatella* (Zetterstedt, 1849).

***infantula* Rondani, 1866**

***intermedia* (Fallén, 1825)**

***karli* Pont, 2001**

Synonymy: *lacustris* (Karl, 1930), preoccupied (Pont 2001).

***lacteipennis* (Zetterstedt, 1845)**

***means* Meigen, 1826**

***minutalis* (Zetterstedt, 1860)**

***mollicula* (Fallén, 1825)**

***pedella* (Fallén, 1825)**

***pumila* (Fallén, 1825)**

***ruficornis* (Macquart, 1835)**

***rufipalpis* Meigen, 1826**

Synonymy: *flavicauda* Ringdahl, 1937.

***testacea* (Robineau-Desvoidy, 1830)**

Synonymy: *tricolor* (Zetterstedt, 1846).

tigrina (Fabricius, 1775)

Synonymy: *viarum* Robineau-
Desvoidy, 1830.

***villana* Robineau-Desvoidy, 1830**

Synonymy: *mystica*: auctt.,
misidentification.

IMPORTED SPECIES

***Hydrotaea aenescens* (Wiedemann,
1830)**

Footnote: a widespread synanthropic
species, which was intercepted (about
1980) in Britain (puparia imported as
bait for anglers) and Ireland (reared
from larvae confiscated from
continental anglers) (Pont 1986b;
Skidmore 1985); it has recently been
confirmed as established in Britain

(Pont *et al.* 2007). Larvae, known as “red devils”, have been advertised for sale in angling shops, but it is not known if it has yet become established in Ireland. It is known as the “dump fly”

in North America, as larvae are predatory on *Musca* larvae in dumps.

94. CALLIPHORIDAE

The Irish fauna of this family has not been reviewed and records are scattered in the literature. The arrangement and nomenclature of the present list mainly follow the revision of northern European blowflies by Rognes (1991a).

CALLIPHORINAE

BELLARDIA ROBINEAU-DESVOIDY, 1863

pandia (Walker, 1849)

Synonymy: *biseta* (Kramer, 1917).

viarum (Robineau-Desvoidy, 1830)

Synonymy: *aculeata* (Pandellé, 1896).

vulgaris (Robineau-Desvoidy, 1830)

Synonymy: *agilis* (Meigen, 1826), preoccupied.

CALLIPHORA ROBINEAU-DESVOIDY, 1830

uralensis Villeneuve, 1922

Footnote: added by Irwin (1976a).

vicina Robineau-Desvoidy, 1830

Synonymy: *erythrocephala* (Meigen, 1826), preoccupied.

vomitorea (Linnaeus, 1758)

CHRYSOMYIINAE

Synonymy: Phormiinae.

PHORMIA ROBINEAU-DESVOIDY, 1830

regina (Meigen, 1826)

PROTOPHORMIA TOWNSEND, 1908

terraenovae (Robineau-Desvoidy, 1830)

Footnote: added by Blackith *et al.* (1990).

LUCILIINAE

LUCILIA ROBINEAU-DESVOIDY, 1830

ampullacea Villeneuve, 1922

Footnote: added by Irwin (1976b).

caesar (Linnaeus, 1758)

illustris (Meigen, 1826)

sericata (Meigen, 1826)

silvarum (Meigen, 1826)

MELANOMYINAE

MELINDA ROBINEAU-

DESVOIDY, 1830

+*gentilis* Robineau-Desvoidy,
1830

Footnote: added by Chandler *et al.*
(2000).

viridicyanea (Robineau-
Desvoidy, 1830)

Synonymy: *anthracina* (Meigen,
1838); *coerulea*: Wainwright, 1928,
misidentification; *cognata*: auctt.,
misidentification.

POLLENIINAE

POLLENIA ROBINEAU-

95. RHINOPHORIDAE

This family, formerly included in either the Tachinidae or Calliphoridae is maintained as separate following current usage, although Rognes (1991) suggested, without dealing with them further, that they should be regarded as a subfamily of Calliphoridae. The Irish species were reviewed by Nash (1985).

MELANOPHORA MEIGEN, 1803

roralis (Linnaeus, 1758)

PAYKULLIA ROBINEAU-

DESVOIDY, 1830

Synonymy: *Plesina*: auctt.,

DESVOIDY, 1830

amentaria (Scopoli, 1763)

Synonymy: *vespillo*: auctt.,
misidentification.

+*griseotomentosa* (Jacentkovský,
1944)

Footnote: added by Chandler *et al.*
(2000).

labialis Robineau-Desvoidy,
1863

Synonymy: *excarinata* Wainwright,
1940.

rudis (Fabricius, 1794)

+*viatica* Robineau-Desvoidy,
1830

Footnote: added by Chandler *et al.*
(2000).

misidentification.

maculata (Fallén, 1820)

Footnote: added by Speight (1988a).

RHINOPHORA ROBINEAU-

DESVOIDY, 1830

lepida (Meigen, 1824)

TRICOGENA RONDANI, 1856

Synonymy: *Frauenfeldia* Egger, 1865.

rubricosa (Meigen, 1824)

Synonymy: *trilineata* (Meigen, 1824).

96. SARCOPHAGIDAE

The Irish fauna of this family has not been reviewed, apart from an account of the Sarcophagini (Blackith *et al.* 1994). The nomenclature and arrangement follows the world catalogue by Pape (1996), who restored the older concept of *Sarcophaga* placing all its divisions as subgenera, mainly on the grounds that half of these worldwide are monospecific, which is strongly indicative of the need for a more critical appraisal of them. As *Sarcophaga sensu lato* is clearly monophyletic, this view is endorsed here.

MILTOGRAMMINAE

Synonymy: Miltogrammatinae;

Macronychiinae.

MACRONYCHIA RONDANI, 1859

+*polyodon* (Meigen, 1824)

Footnote: added by Chandler *et al.* (2000).

+*striginervis* (Zetterstedt, 1838)

Footnote: added by Chandler *et al.* (2008).

98. OESTRIDAE

The composition of this family follows that in the Nearctic Manual (Wood 1987); in the Palaearctic Catalogue the three subfamilies were accorded family rank (Soós and Minár 1986) and that has been followed in more recent European literature. The Irish species have not been reviewed and there is a scattered literature.

OEDEMAGENA LATREILLE, 1818

tarandi (Linnaeus, 1758)

Footnote: the reindeer warble fly, a circumpolar species, has been recorded as an introduction, only on captive animals; it was recorded initially from the Zoological Gardens in Dublin (Carpenter 1911).

ACKNOWLEDGEMENTS

The authors are indebted to all those who have contributed records of Irish Diptera over the years and who are collectively responsible for the continuing advances in knowledge of the Irish fauna. We are also grateful to Nigel Monaghan, Keeper of the Natural History Division, National Museum of Ireland, for his support.
