January 2004

Foreword from Anne-Walsh Daneshmandi

The genesis of this directory began more than a year ago, when the Environmental Focus Group set a goal to create a map of environmental activity within the Dublin region. Although there seemed to be a will to 'make a difference', in practice information about 'green' activity was scattered and often difficult to find. In an effort to find ways to address this the need for a map of the network became clear.

After much hard work we have now achieved the first step of this goal. In this publication we provide information on 369 groups engaged in environmental activity in Dublin. The hope is to offer a useful document, which will make the access route to these groups more visible.

While it is clear that those involved in the promotion of ecological awareness should think twice about producing printed versions (*even on recycled paper*) of material, we felt it important to provide the information in booklet form in tandem with making electronic versions available. This will ensure the information is accessible to the widest possible audience. The project will continue with regular updates to the electronic versions of the directory. The Environmental Focus Group has committed to planting a sufficient number of trees to replace the paper used in producing this publication.

We hope that you will use this directory often and that it will make it easier for you to "*Make a Difference*" to the city's environment.

Anne Walsh-Daneshmandi
Chairperson
Environmental Focus Group

INTRODUCTION

What is the Dublin City Environmental Directory?

A lot of data has been published on Dublin City's environment, yet environmental activities currently being undertaken are less well documented and up-to-date contact information is difficult to obtain. Dublin City, like many other large cities appears to have a lot of activity and activism in the environmental area, yet there has never been an attempt to map the level of environmental activity in Dublin City.

In response to this need, the Dublin City Community Forum Environmental Focus Group commissioned Marcus Collier of Lámh Services to compile a unique and comprehensive dataset of all the groups active in environmental protection and awareness raising in the Dublin City area. In November 2003, Marcus produced the dataset and a report entitled "*Mapping Environmental Activity in the Dublin City Area*" (November 2003). The results of this research project would enable the Environmental Focus Group to gauge the level and scope of such activities in order to assist it and the rest of the City in information awareness, dissemination and consultation - therefore help to make Dublin "*A Greener City*". Developing Dublin as a Greener City is one of fifteen priorities in the Dublin City Development Board's *Dublin - A City of Possibilities: A Cultural, Economic and Social Strategy 2002-2012*. This Strategy is the blueprint for improving the quality of life of everybody that lives, works and visits Dublin City.

The Dublin City Environmental Directory 2004 has been developed to provide you with the most comprehensive listing of groups that are active in environmental protection and awareness raising in the Dublin City area. The Directory includes information on 369 groups that are in the dataset that Marcus Collier compiled. The Directory shows that there is in fact a great deal of environmentally conscious activity being carried out by local and national groups in an attempt to make Dublin a Greener City. If you want to find out who is doing what, link up with partner groups or just keep people informed about environmental initiatives, it is hoped that this Directory will help you out and provide you with an easy to use listing of groups involved in environmental activities in Dublin City.

How to use this Directory?

If you are want to find out which groups work on certain **THEMES** e.g. education, pollution, recycling etc, check out **SECTION 1** which gives a full list of all the groups that work on the theme. If you need contact details for the groups, look them up in Section 3, which gives a list of the groups in alphabetical order, A-Z.

If you want to find out which groups are based in **DUBLIN POSTCODE AREAS** e.g. Dublin 1, Dublin 8 etc, check out **SECTION 2** which gives a full list of all the groups that are located in that postcode area. Again, if you need contact details for the groups, look them up in Section 3, which gives a list of the groups in alphabetical order, A-Z.

If you want to find information about a particular **GROUP**, check out **SECTION 3**, which gives a full list of all the groups in the directory. The groups are listed in alphabetical order, A-Z. Full contact details for the groups are given (where available) including group title, contact name, address, phone number, fax number, type of group, e-mail and website. There are ten types of groups as follows:-

CDG	community development group
CG	community group
COM	company
GO	governmental organisation
NGO	non-governmental organisation
RA	residents association
SWG	school wildlife garden
UNI	university
WEB	website

Acknowledgements

The Dublin City Environmental Directory 2004 would not have been possible without the commitment and effort of the members of the Dublin Community Forum Environmental Focus Group. While it would be impossible to name each person, I would like to say thanks to the late Phil Delaney, and to Joanne Faulkner and those who contributed so much at the early stages of the project. Thanks also go to; Catherine Cavendish, Councillor John Gallagher, Ann Gillanders, Lorna Kelly, and Brenda Yourell, who nursed the project through all its various stages of development. Thanks are also due to Derek Fitzpatrick and Elaine Hess from the Dublin City Development Board for their invaluable contribution to the production of the publication. My gratitude goes to Marcus Collier of Lámh Services for his professionalism and commitment. I would like to thank as well the many people who assisted Marcus in his research, including Councillors Eric Byrne, Gerry Breen and Ryan Meade; Donncha O'Duláing; Órla Malley; Sandra Boyd; Patrick Madden; Dale Treadwell; Seámus O'Cannain; Su Clarke; Paul Rogers; Maria Place; Roslyn Palmer; Brendan Keenan; Davie Philip; Caren Levine; Martin Shields; Jane Helps and Louise Mullen.

Anne-Walsh Daneshmandi
*Chair of the Dublin Community Forum
Environmental Focus Group*
